📍 Yeka sub city, Addis Ababa

EDUCATION

Bachelor of Software Eng.

WOLLO University

2011 - 2016

EXPERTISE

Full Stach Developer (MERN stack)

UI/UX Design /Figma Design

Database Design

Cyber security and ethical hacking

System testing and mainenance

PROFILE

Dedicated and results-driven Software Engineer with expertise in Full-Stack Web Development, Database Management, Networking, Cybersecurity, and System Administration. Skilled in building scalable web applications, implementing secure solutions, and solving complex technical challenges. Strong communication, teamwork, and problem-solving abilities, with a passion for innovation and continuous learning.

INTERNSHIP EXPERIENCE

Jan 2023- June 2024

App factory academy | kombolcha

During my internship, I received both theoretical and practical training in Full-Stack MERN Stack development. I worked with MongoDB, Express.js, React.js, and Node.js to develop dynamic and responsive web applications. The training covered front-end development, back-end API development, database management, user interface design, and application deployment. This experience strengthened my technical skills and provided practical exposure to modern web development technologies and software engineering practices.

LANGUAGE

Amharic: Native
